Other

- Git & GitHub
- Command Line Tools
- Package Managers

PROFILE

Driven software engineer with a strong focus on frontend and backend technologies. Bringing over a decade of experience in accounts and administration, coupled with five years of teaching English as a Foreign Language. My journey into the world of technology began with Harvard's CS50, and I have since honed my skills through CodeClan's Professional Software Development course in Edinburgh.

TRAINING

CodeClan

Sep 2022 to Feb 2023

Comprehensive 16-week programming course. SQA Accredited (Level 8). With over 800 hours of practical coding, individual and groups projects, and expert-led tuition. Included OOP, TDD, UX design, agile methodologies, version control, command line, and pair-programming.

PROJECTS

[View Portfolio](#)

Movie Watchlist

Python/Flask/PostgreSQL

- Flask application incorporating simple CRUD actions which allow a user to input directors and movies to keep tabs on their viewing. Users can rate the movies they've seen and visit individual director and movie pages, using RESTful APIs. Solo project.

Learn Scotland

JavaScript/React/Express/Mongodb

- Full stack React application about Scotland allowing a user to interact with quizzes, see scores on a leader board, and post comments. This included a multiple choice, drag & drop, and map location quiz. Group project.

WeatherWise

Python/Django/React/SQLite3

- Developed a fully responsive Weather app for a user to search 45,000 cities and get 24 hour and 10-day weather forecasts, taking advantage of APIs from openweathermap.org and met.no. Includes a My Locations dashboard with local time zones. Solo project.

EDUCATION

MA International Communication
University of Leeds

BSc (Hons) Psychology
Open University

BA (Hons) Media Studies
De Montfort University

VOLUNTEERING

Collaborating with the Scottish Tech Army to automate website updates using Jira and Squarespace via Zapier. Focused on updating project information and pinning map locations.

ACTIVITIES

Learning new technologies.

Independent travel to Europe, Asia, and North & South America.

Hiking and adventure.

World Cinema.

EXPERIENCE

Contact Tracer - Test and Protect Scotland

Oct 2020 to Sep 2022

NHS Lothian, Edinburgh

- Conducting in-depth interviews with Covid-19 positive cases. Identifying contacts, high risk situations, public health concerns and infection patterns.
- Using CMS database to record information and communicate with Covid-19 positive cases and their contacts.
- Working with employers to identify high risk individuals offering public health advice and guidance on best practice.
- Supporting the rest of the team, sharing knowledge, experience, and best practice to support improvements to overall program.

English Teacher – Freelance Online

Aug 2019 to Aug 2021

Whales English, Beijing, China

- Educating Chinese students from ages 5-17 in classes of two.
- Using video software, with advanced teaching tools and accessories.
- Trial classes for marketing to new students and parents, with bonus incentives.
